Our team will turn your dream into reality.

The wood frame division of Brecknock Builders is made up of master wood craftsmen. From custom homes to unique horse barns, and two-story commercial buildings to pole barn garages, and custom decks, we can do it all. Our designers will help you visualize your dream, and our team of carpenters - using stick-framing, traditional-timber frame, or pole barn construction - will turn your dream into reality.

Custom Homes

Brecknock Builders specializes in truly custom homes. You won't find cookie-cutter designs or one-size-fits-all plans here. Our design staff is dedicated to helping you build your dream home, even if you're not clear on what that looks like just yet.

Home Remodels & Additions

Often, rather than building a new house or moving, it makes sense to add on to or remodel the house you already own. Whether that's adding a sunroom, master bedroom, composite deck, or garage, our design/build team can make it just the way you want it. We are masters of custom craftsmanship, and we will work with you to make your dream home a reality.

Spacious Garages

Maybe you're tired of frosted windshields. Maybe you want to protect your classic car, expensive boat, or other investments. Or maybe you simply need the extra storage. But there's not a one-size-fits-all solution. Sounds like you need a custom garage. Want it rustic? No problem. Heated floors? Sure. Carriage style garage doors? You got it. Just call Brecknock Builders.

Decking

Transform your outdoor space with a custom deck from Brecknock Builders. Whether you want a composite deck for entertaining or a cozy wood deck, we tailor every design to your needs. From multi-level layouts to custom railings, our expert craftsmanship ensures your deck is both beautiful and durable. Enjoy a backyard retreat made just for you.

Custom Barns & Equestrian Facilities

If you want an ordinary pole barn, don't call us. But if you want a unique and completely custom barn built just the way you want it, call Brecknock Builders. We'll work with you to design, build, and furnish the perfect stable with a beautiful tack room and easy-to-clean wash-bay. Our steel division can help you build an expansive indoor riding arena so that you can train year-round no matter what the weather is.

From Concept to Completion.

Building projects can seem overwhelming. You may have some idea of what you need or of what you want, but you may have no idea where to start or how to reach the finish line. When you build with Brecknock, you don't walk alone. Our team will be your guide from the beginning and will shepherd your project until it's complete. Each project is different, but no matter your needs, we are there for you every step of the way.

Our Process

1

You tell us what you're looking for

We meet with you, and you tell us what you need or what your dream is. We will answer your initial questions and gather all of the necessary information to see if your dream can become your reality.

2

We do the work of preparation

We will research your site and check local codes to make sure that you can build the way that you want to build. Once we have clearance, we'll begin a detailed design, give you clear pricing, and draw up a contract.

3

We build your dream

We will gather the permits, make sure the site is ready, and then begin to build. We will do much of the work ourselves, and will carefully monitor any subcontractors that are necessary for consistent quality.

4

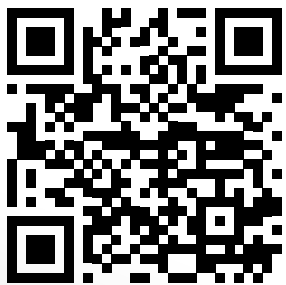

You enjoy your new facility

When the project meets our standards, and when the last inspector's papers are signed, we'll deliver a completed building to you that is clean and ready to use.

Explore Our Commercial Construction Services

We also specialize in commercial construction, offering design, pre-engineered steel construction, and interior finishing for projects such as warehouses, retail stores, office buildings, and much more.

Client Testimonials

"In February 2022, my family experienced a devastating house fire that resulted in the total loss of our historic farmhouse. After reaching out to several reputable builders, we quickly realized that finding a capable builder with the skill set to rebuild a large stone home would not be an easy task. After an onsite visit and discussion with Brecknock, we quickly understood this was well within their capabilities. Over the course of the rebuild, it was clear that their workmanship, attention to detail, work ethic, and communication were outstanding."

Andrew Luongo

"We used Brecknock for two projects, and both jobs were performed by skilled, efficient carpenters. We just had a sunroom and carport completed, and everyone complimented the work. Thank you, Brecknock!"

Douglas Lamando

"Brecknock Builders are Amazing Builders and Professional in every way! They are precise in making sure their clients projects are completed to their satisfaction and upfront about project scheduling as well. Thank you Brecknock team!"

SS Williamson

About Us

Brecknock Builders is a family-owned operation with a long-standing commitment to quality and craftsmanship. We've been building quality steel and wood structures for residential, commercial, industrial, mini storage, and agricultural customers since 1986. In the early years of our operation, the company served the local area mainly as a sub-contractor. Our focus on superior quality, skilled craftsmanship, honesty, and integrity helped to forge relationships with local general contractors, suppliers, and developers.

Father and son team Titus and Jonathan Martin have a combined 60+ years of experience in the construction industry. In 2000, they acquired the company and grew it from twenty employees to more than forty employees. Brecknock Builders has two distinct divisions - steel and wood construction - each with its own team of specialized and experienced staff.

In addition, we are a trusted erector for a number of well-known pre-engineered metal building manufacturers and mini storage building systems. We continue to seek opportunities throughout our local and Tri-state area, within a two-hour radius of our location in Northeastern Lancaster County.

Questions & Answers

How Far do you travel?

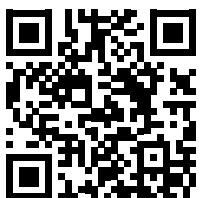

We will go pretty much anywhere within a two-hour radius of our headquarters in Denver, PA.

Will You Help me get My Permits?

Yes! We're here to help you from start to finish. From the design and permit stage, all the way to turn-key completion.

Are your workers messy?

Not usually. They're hardworking and well-mannered individuals who respect your property.
